# HYDROGEN VILLAGE

## 2024 POST SHOW REPORT

MARCH 6, 2024 | SACRAMENTO, CA

Toyota, lead sponsor, showcased their [TRD Fuel Cell Generator Tundra](#), which helped power parts of Hydrogen Village. State Senator [Ana Caballero](#) (center) talked with Stix and Toyota representatives.

Several companies showcased technologies that provide stationary power, including [FuelCell Energy](#) and their tri-generation plant at the Port of Long Beach. [GenCell Energy](#), pictured here, featured one of their products for EV charging and hydrogen fueling.

Multiple vehicle displays offered an intimate glimpse of hydrogen vehicle engineering, providing a more fuel-efficient trucking and transportation industry. Some companies showcased were [Cummins](#), [Hyundai](#) (pictured), [Hyzon](#) and [Nikola](#).

Hydrogen Village offered a unique opportunity to learn about the latest in hydrogen and fuel cells. Even more, it gave every attendee a chance to network with business and government representatives who are helping move low and zero-emission technologies forward.

Legislators and their staff dropped by the Village to take a look at hydrogen and fuel cell technologies on display. State Senator [Roger Niello](#) met Horizon student racing teams from his district to hear more about what they've learned from racing hydrogen cars.
